PROFESSIONAL  
EXPERIENCE

- TheDB-QA System / aos.in.th / 2025 – Present**  
Developer Engineer (Intern)
- Developed frontend modules for an educational quality assurance system (TheDB-QA) using HTML, CSS, JavaScript, Bootstrap, and Highcharts on CodeIgniter 3 framework, including search functionality, indicator dashboards, and profile pages.
  - Conducted system testing using Postman for API validation and deployed updates to production servers via WinSCP.
- PRAMERN System with 92 Tech co.,ltd / 2024 – 2025**  
Quality Engineer (Industry Collaboration Project)
- Lead the team in designing mockups and developing the complete front-end system, emphasizing user experience and responsiveness.
  - Guided and trained team members in using Figma for design collaboration, ensuring consistency and efficiency.
  - Gathered requirements and created detailed system diagrams to align project objectives and streamline communication.
- Warehouse Management System with TTT Brother Co., Ltd. / 2023 – 2024**  
Developer Engineer (Industry Collaboration Project)
- Manage quality assurance processes by reviewing and verifying all documentation to ensure compliance with standards and accuracy.
  - Managed and prepared comprehensive requirement documents to support project development and align with stakeholder needs.
  - Contributed to the design of UX/UI for both web and mobile platforms, collaborating with the team to create intuitive and user-friendly interfaces.

EDUCATION

**Burapha University | 2022 – Present**

Burapha University | 2022 – 2025  
Bachelor of Science in Software Engineering

- GPA: 2.98
