PROFESSIONAL
EXPERIENCE

TheDB-QA System / aos.in.th / 2025 - 2026

Developer Engineer (Intern)

- Developed frontend modules for an educational quality assurance system (TheDB-QA) using HTML, CSS, JavaScript, Bootstrap, and Highcharts on CodeIgniter 3 framework, including search functionality, indicator dashboards, and profile pages.
- Conducted system testing using Postman for API validation and deployed updates to production servers via WinSCP.

PRAMERN System with 92 Tech co.,ltd / 2024 - 2025

Quality Engineer (Industry Collaboration Project)

- Lead the team in designing mockups and developing the complete front-end system, emphasizing user experience and responsiveness.
- Guided and trained team members in using Figma for design collaboration, ensuring consistency and efficiency.
- Gathered requirements and created detailed system diagrams to align project objectives and streamline communication.

Warehouse Management System with TTT Brother Co., Ltd. / 2023 - 2024

Developer Engineer (Industry Collaboration Project)

- Manage quality assurance processes by reviewing and verifying all documentation to ensure compliance with standards and accuracy.
- Managed and prepared comprehensive requirement documents to support project development and align with stakeholder needs.
- Contributed to the design of UX/UI for both web and mobile platforms, collaborating with the team to create intuitive and user-friendly interfaces.
